For the safety of your child follow these warnings and the assembly instructions carefully. Keep for future reference.

This cot converts into a toddler bed suitable for children from about 15 months up to 25 kg weight.

RECOMMENDED MATTRESS SIZE This cot has been manufactured for use with a mattress which measures 700 mm wide by 1320 mm long and 60-110 mm in thickness. The width and length are specified because it is important that the gaps between the mattress and the sides and ends of the cot will not exceed 40 mm when the mattress is pushed to one side or end, and 20 mm when the mattress is centred in the cot. This is to minimize the risk of a child´s limb becoming caught in the gap. The thickness of the mattress has been specified to ensure that the depth of the cot is greater than 500 mm with the mattress base in the lower position to minimize the risk of a child climbing or falling out of the cot.
